## **SUPPORT YOUR LOCAL POLICE (and Fire, and EMS)**

### ***Police, Fire and EMS appreciation night at Meridian Speedway!***

Meridian Speedway is offering free admission on June 6 to all Police, Fire and EMS personnel as a way to thank them for the work they do helping all of us.

To get free tickets (up to 4 per family) go to ***InjuryCareMedical.com*** and click on the Meridian Speedway tickets link. Remember, this is only valid for Police, Fire and EMS personnel. First responders will still need a ticket and will need to show valid ID at the gate.

The evening is being sponsored by Injury Care Emergency Medical Services (they provide the ambulances and medics for the races to Meridian Speedway)

There will be great visuals: the 'pace cars' will be emergency vehicles from local agencies (with lights and sirens), an intermission landing by a life flight helicopter and a visit from Smokey the Bear!

Because it is the beginning of the wildfire season a 50-50 drawing will benefit the *Wildland Firefighter Foundation*.

Injury Care Emergency Medical Services is Idaho's newest paramedic level ambulance service. They provide stand-by emergency services and transportation between hospitals and other healthcare facilities. ICEMS also provides pre-hospital emergency medical care throughout the northwest for federally managed disasters and wildfires.

Although ICEMS is a new agency, it grew out of 2 separate companies and has a long history of providing medical care in the area. Wildland Fire and Rescue is a non-transport paramedic agency that provides stand by services for federally managed disasters and wildland fires. Injury Care Medical Center is the Treasure Valley's leader in providing patient centered treatment of injuries and pain from accidents playing sports, at work, or from motor vehicle collisions

Injury Care Emergency Medical Services is locally owned by Bill Arsenault, a combat veteran paramedic, and Richard Radnovich, a Boise physician. They each have years of experiences in emergency medicine, and the stories to prove it! Both Bill and Dr. Radnovich are available for interviews. **Injury Care EMS 'B' roll footage is available.**
